Dear Patients:

We are taking the spread of Covid-19 very seriously. In following the lead of the Wisconsin Dental Association and their legal team, we are re-opening our office now to emergency, elective and hygiene services.

Given the need to comply with social distancing and safe business practices we will have the following protocols in place:

- Patient cannot have traveled out of the state/country/large Wisconsin cities (Milwaukee/Madison/Green Bay) within the past 2 weeks
- Patient or any members of household cannot have any symptoms of illness especially cough; fever; or shortness of breath
- We will be taking temps of all people coming into the office
- No one else is to accompany patient into office or treatment room....exceptions for children or infirm adults (one parent/guardian only).
- We highly recommend that you wait in your vehicle; please call the office upon arrival
- Do not come early for appointment, unless waiting in vehicle
- It is recommended that patient wear face mask of their own
- Our chairs in the waiting reception room will be spaced at least 6 feet apart; some patients may be seated in the other business office adjoining our office.
- At arrival we will ask again the health related questions

Thank you for your patience and understanding!

Dr. Charles A. Sowieja and Staff
